

Pilot Implementation

Ellerton™ Literacy Series

Recommended For

Pre-Kindergarten (Pre-K), Transitional Kindergarten (TK), and Kindergarten
Ages 3-6

Purpose of the Pilot

The Ellerton pilot is designed to introduce the literacy series in real classroom settings, allowing educators to evaluate ease of use, instructional alignment, and student engagement in authentic classroom settings. The goal is to gather actionable classroom feedback while demonstrating how the system supports early literacy development within daily instruction.

What the Pilot Includes

- A selected set of Ellerton student books aligned to current classroom instruction
- Teacher-facing materials, including scope & sequence and implementation guidance
- Suggested usage structures for small group, centers, or independent practice
- Optional check-ins and ongoing support throughout the pilot period

Flexible Classroom Implementation

The Ellerton series is designed to integrate seamlessly into existing instructional blocks. Materials can be used during literacy centers, small group instruction, or independent practice without disrupting existing instructional routines or core curriculum.

- Small Group Instruction: Targeted skill practice with teacher guidance
- Literacy Centers: Independent or partner-based reinforcement activities
- Independent Practice: Structured skill application aligned to current learning goals

Feedback and Next Steps

Teacher and administrator feedback is used to refine materials and ensure strong alignment with classroom needs and instructional priorities. Following the pilot, schools or districts may explore expanded implementation based on results and instructional fit.
